MACQUARIE PARK INNOVATION DISTRICT

LET'S KEEP MACQUARIE PARK MOVING TOGETHER

Macquarie Park is a thriving innovation district that is growing fast, which is why we all have to think about our travel choices.

We're here to make this easy for you, and to spread the word about all your options available across the Park.

With the new Sydney Metro, additional bus routes and a growing cycleway network the good news is there's more choice than ever.

Why not try commuting off peak or giving your car the day off?

Whether you're coming to work, a meeting or just popping out for lunch, this guide will help you keep moving.

For more info, visit connectmpid.com.au

TRAVEL BY TRAIN

Sydney Metro serves three stations in our area – Macquarie University, Macquarie Park and North Ryde.

Sydney Metro connects with Epping, T9 services and Tallawong in the north, while trains to the south go to Chatswood, T9 and T1 services and Sydney city.

Metro trains are fast and frequent, with a "turn up and go" service you don't need a timetable.

Sydney Metro fares are the same as existing train fares and all Opal benefits apply.

Heading to the city or airport?

Convenient, step-free interchange at Chatswood will seamlessly connect you to the rest of the Sydney Rail network.

Visit sydnymetro.info for updates.

TRAVEL BY BUS

With many new, comfortable and air-conditioned vehicles, maybe it's time to take a fresh look at taking the bus?

Did you know more than 30 different bus routes serve Macquarie Park & North Ryde?

From Blacktown to Mona Vale, from Sydney Olympic Park to the city, that's hundreds of seats, ready to reach your destination.

Check out the bus routes nearest to your workplace.

Head to transportnsw.info for a personalised bus journey planner.

TRAVEL BY CAR

On street parking has a cost and a time limit, and is carefully patrolled by rangers. Pay attention to parking restrictions!

On street parking costs \$4 per hour, with 2P, 4P and 12P bays available from 7am to 7pm – you can pay by card at any meter.

Car sharing bays are available throughout the park – check GoGet or Car Next Door to see if there's one near you.

Electric cars may be charged at Macquarie Centre.

Taxi ranks are located at:

- Macquarie Centre (Herring Rd)
- Optus Sydney Campus (1 Lyonpark Rd)
- Foxtel (3 Thomas Holt Dr)
- Triniti Campus (New Link Rd)

Top tip: beat rush hour on the roads by re-timing your journey. Avoid driving in the local area between 8am and 9am.

PLAN YOUR TRIP

Avoid the peak for a faster journey

Find a safe spot – use apps to check capacity

Check restrictions, like mask wearing and road closures

If you're not feeling well, don't travel to Macquarie Park

WALKING & CYCLING

Active travel is free, fun and often the fastest way to move. People who walk and cycle enjoy health, wealth and happiness benefits - as well as reducing congestion.

Macquarie Park's active travel network is growing, and includes:

- Shrimpton's Creek – nature corridor to Denistone East
- Lower North Shore cycleway – bike track along Gore Hill Freeway and Epping Road
- Waterloo Road – east / west shared path through the centre of the park
- Talavera Road – shared path linking the university and Lane Cove National Park.

Check if your workplace has showers, changing rooms and secure bicycle parking available by talking to your building manager.
